

# WATER SAMPLE DROP OFF LOCATIONS

Updates to this information could occur as often as weekly. It is advised you to check regularly, especially prior to collection and drop off, to ensure that no changes have taken place as we may not be able to reach out to all operators directly. We apologize for any inconvenience this may cause you or your organization. If your current water sampling is cancelled or you cannot make the rescheduled drop-off timelines, please use a [private accredited lab](#). If you have any questions, please contact 250-565-7322 to speak with an Environmental Health Officer (EHO).

In order to meet the 30hrs required lab sample processing time, samples must be taken the morning of delivery to ensure they can arrive at the lab within the required time frame.

All samples must be accompanied by the requisitions issued to you. Please do not photocopy or re-use requisitions. If you need a new requisition, contact your nearest Health Unit office.

Requisitions and sample bottles must have the date and time of sampling written on them by you.

Contact the nearest nh office for sample bottles and requisitions.

Outside NH, the nearest Health Unit office should be able to help you.
