

# In just *one year* (2010) in *northern BC*...

There were

**171 DEATHS**

close to one death every

**48** hours

**2,775** people were

**HOSPITALIZED** for serious injuries, requiring...

**6<sup>1/2</sup>** average-sized hospitals

filled to capacity to accommodate this number of injured people

**43,082**

people required

**EMERGENCY MEDICAL ATTENTION**

for their injuries...

the equivalent to a line up

**26**

kilometres long, the length of 54 Football fields, waiting to get into the emergency room to be treated for their injury

**719** people suffered a permanent **PARTIAL DISABILITY\*** requiring...

**72**

more HandiDart buses to accommodate these people

**57** people suffered a permanent **TOTAL DISABILITY†**..

more than **1** person **EVERY WEEK**

\*Permanently disabled, but able to return to some type of employment.

†Permanently disabled and unable to work.
